

Company profile

Dear Sir or Madam

GEEKOMP Kft. is a service company and calibration laboratory of surveying and construction instruments. We are repairing and selling instruments from optical levels through lasers till total stations, GNSS systems.

Our firm is a 100 % independent hungarian company which is property of hungarian private owners. GEEKOMP established in 1991 and we are audited under ISO 9001 and our business activities is also audited by NQA.

Geokomp's mission is to:

- ✓ Provide high quality, affordable services
- ✓ Achieve complete customer satisfaction
- ✓ Improve our services continuously
- ✓ Maintain professional relationships with our partners
- ✓ Create and cultivate long-term relationships with customers

Repairs and maintenance of the instruments are performed by trained service technicians, calibrations of the instruments are performed by measuring-professionals (metrologists).
